RUSH — TIME DATED

TODAY & TOMORROW

(Newsbriefs continued)

A workshop in "Family Life Education for Teachers and Parents with Students with Physical Disabilities" will be held Sunday to Wednesday, April 12 to 15, at the Civic Center Holiday Inn.

The workshop is meant primarily for special education teachers who wish to incorporate family life education into their teaching, and will focus on sensory, physical and developmental disabilities; issues of sex and mental retardation will not be addressed in great depth.

Sponsored by the Sex and Disability Unit of the Human Sexuality Program, the workshop is made possible by a grant from the Bureau of Education for the Handicapped, DHHS. For further information contact Carla Thornton, director, Family Life Education Training Project, x1066.

Campus individuals are reminded that the extension for William R. Murray, professor and chairman, Orthopaedic Surgery's Academic Office, has been changed from 1904 to 2280. His room location of U 414 remains the same.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which covers the period Apr. 18 to May 1, will be Tuesday, April 7, 11 a.m. Send your copy to Allen Balderson, News & Public Information Services, 1475-4th Ave., extension 1541 or 2557.

A County-wide Earthquake Disaster Exercise will be held on Wednesday, April 22. The drill which will take place four days after the anniversary of the 1906 quake, will assume that an earthquake with a magnitude of 8.3 on the Richter scale has hit the San Francisco area, causing massive casualties and damage.

All San Francisco hospitals and medical centers will participate. UCSF's Hospital Disaster Committee has decided to focus this year's drill on educating and orienting hospital staff and various campus personnel about their responsibilities during a disaster. Hospital directors, administrative nurses, and department managers are being asked to meet with their staffs on or before April 22 to review the hospital disaster plan and departmental disaster protocols and procedures. In addition, on April 22, department heads are asked to have their staffs "walk through" all pertinent aspects of responding to a real disaster. All shifts should be included in these efforts.

The Disaster Planning Committee will assist with these efforts by providing educational material, assistance at staff meetings and having critique teams visit various nursing units and departments on April 22 to evaluate staff awareness and knowledge of hospital and departmental disaster procedures. For further information contact Hiro Tokubo, Disaster Drill Coordinator, x4021

Bright yellow emergency stickers to be placed on all telephones have been given to all departments on campus with the exception of Hospitals and Clinics. They read: **In Emergencies: Fire, Medical and Police, call 1110.** Individuals in non-hospital areas who have not received these yellow stickers should contact Business and Fiscal Services, x2496. Hospitals and Clinics departments have red and white emergency stickers on their phones with special instructions for emergencies occuring within the hospitals, including Code Blue.

The new emergency response system answers the need to supplement Code Blue emergency in all areas of the campus outside the hospitals and clinics area, and came after the Executive Medical Board reviewed the abilities of the Hospitals and Clinics Code Blue Team to respond to the diverse geographic areas of the campus. The team carries certain medical equipment required for life-threatening emergencies and responds to all patient emergencies within the hospital and other emergencies within certain geographic boundaries, but cannot serve all areas of the campus due to distance or lack of accessibility.

The campus police and a San Francisco City ambulance specially equipped and manned by trained paramedics, respond at once to the 1110 call if needed. If a delay is anticipated, a backup private ambulance will respond within 8 to 10 minutes. Patients are taken to the UCSF Emergency Department, unless otherwise instructed, or if there is a need for special services.

NEWS BRIEFS

The 1981 School of Nursing Alumni Day will be Saturday, April 25. This year's program is entitled "Aging: Myths and Realities," and will address some of the key issues that affect older people today including public policy and cultural approaches to the care of the elderly.

Speakers will include: Jeanne Hallburg, associate professor, Family Health Care; Carroll Estes, professor, Social and Behavioral Sciences; Tish Sommers, president, Older Women's League; Priscilla Ebersole, associate professor, Nursing, San Francisco State; and Jeannie Kayser-Jones, assistant professor, Family Health Care. A business meeting chaired by Phyllis Reichle, '52, president of the School of Nursing Alumni Association, a slide presentation on the history of UCSF by Joseph LaDou, and welcoming remarks by Dean Margretta Styles will precede the program.

Registration deadline date is Monday, April 13. For further information call x1435.

Robert B. Jaffe, professor of Obstetrics, Gynecology and Reproductive Sciences has been named a Macy Faculty Scholar for 1981-82. The Josiah Macy, Jr. Foundation awarded 26 awards to senior faculty members from 19 medical schools in the U.S. and Canada to support six months to one year of concentrated research and study at institutions in seven foreign countries and the U.S. Jaffe will be spending his time at the Institut National de la Santé et de la Recherche Médicale in Paris.

UCSF faculty are the second largest group of recipients for the prestigious Macy grants with 13. Yale is first with 18. University of Washington has 11, Duke 10, Harvard 10, University of Colorado 9 and Stanford 9.

The 1981 March of Dimes - 610 KFRC SuperWalk America will be held on Sunday, April 26. A "UCSF team" comprised of employees, faculty, staff, and friends is being organized to participate in this first national March of Dimes SuperWalk.

The walk, which is 32 kilometers, helps raise money for the March of Dimes fight against birth defects. Sponsors are asked to pledge a minimum of 10 cents per kilometer. Registration begins at 7 a.m. in Kezar stadium and the walk starts at 8 a.m.

KRON-TV, Channel 4 will televise the walk and will feature interviews with UCSF's Robert Creasy, professor, Obstetrics and Gynecology, and Seymour Packman, assistant professor, Pediatrics. It will be shown at 3 p.m.

Several prizes will be given for individual San Francisco team-walkers, including a free fiesta at **Casa Maria Restaurant, season tickets for the "Best of Broadway"** series at the Golden Gate Theater, a gourmet dinner at Victoria Station, and many more.

Individuals or departments interested in either sponsoring walkers or becoming part of the "UCSF team" should contact David Bracker, Office of Public Service Programs, x3206.

Geneticist Y.W. Kan, professor of Medicine, Biochemistry and Biophysics, has been elected a fellow of the Royal Society in London. Kan, who also is director of the Howard Hughes Laboratory, was elected to the society on the first submission.

The Royal Society in London was formed in 1660 and has elected to fellowship such prestigious scientific giants as Darwin and Newton. It is the oldest scientific society in England and corresponds to the U.S. National Academy of Sciences.

A free family health fair will be held at the Mission Neighborhood Health Center, 240 Shotwell Street, on Saturday, April 11 from 10 a.m. to 4 p.m.

The health fair is sponsored by Chicanos in Health Education (CHE), a UCSF student group, and the Mission Neighborhood Health Center, and will include screenings in pediatrics, podiatry, dentistry, medicine, women's health care, and special laboratory exams. In addition, the fair will present health education and promotion programs on drug abuse, alcoholism, poison prevention, nutrition, consumer health, community health resources, paramedics, and child safety.

The entire street will be closed off to traffic and entertainment will be provided.

Co-sponsors of the fair are the American Trauma Society, the Office of Public Service Programs, the Personnel Department, and the UCSF student group, Latinos in Dental Health Education.

LPPI's Dyslexia Research Project, a study of a wide range of reading disabilities, is asking for children to participate in their project. Researchers led by David Galin, associate professor, Psychiatry, and Charles Yingling, assistant researcher, Neurophysics, are studying electrical brain waves in an effort to understand the biological mechanism involved in reading problems.

For the next phase of study, they need boys with reading problems, 9 to 13 years old, Caucasian, and right-handed. Other groups will be studied at future dates. Those selected will participate in a series of tests designed to measure electrical activity of the brain, balance, eye movement and vision, hearing and reading comprehension. No drugs or medication are involved and the study pays $20 per day for each child plus travel expenses.

Testing will take place at LPPI's Neurodevelopment Laboratory, U.S. Public Health Service, 15th Avenue and Lake St. Interested parents should contact Linda Davenport, study coordinator, (415) 751-R-E-A-D. Collect calls will be accepted.

Medical Records is installing a new centralized dictating system during the week of April 5. Orientation sessions are now being scheduled to demonstrate the proper use of the new system and provide information on revised dictating instruction. Orientation schedules will be mailed to all medical staff within the next week. Individuals who do not receive the schedule or those needing further information should contact Sylvia De Alba, x1623.

A group of distinguished writers will read from their works on Wednesday evenings from 7:30 to 9:30 p.m. in the Millberry Union lounge. The writers and the dates when they will read are: Hisaye Yamamoto (Apr. 22), Nellie Wong (Apr. 29), Tillie Olsen (May 6), Al Young (May 13), Bienvenido Santos (May 20) and Thomas Sanchez (May 27).

The reading will be followed by a discussion of the writer's work led by a panel of Bay Area humanists and UCSF health scientists.

A book signing will be held in the Millberry Union bookstore from noon to 1 p.m., and sessions with interested students will be held in the Millberry Union Residence Lounge from 2 to 4 p.m. preceding each program. Works by the listed writers will be available at the bookstore for purchase several weeks before each reading.

This series, "Light from Many Windows," is sponsored by Continuing Education in Health Sciences and partially supported by a grant from the California Council for the Humanities. Moderator is M. Margaret Clark, professor and vice chair of Medical Anthropology. For registration information and tickets, at $5 each, call x2894.

Two UCSF scientists, Stephen G. Lisberger and Geoffrey H. Gold, both from Neurosciences, are among 89 outstanding young scientists and economists selected to receive two-year Alfred P. Sloan Research Fellowships of $20,000 each.

The fellows are selected from hundreds of highly qualified nominees on the basis of their "exceptional promise to contribute to the advancement of knowledge in the early stages of their careers." The Sloan Fellowship Program started in 1955 and eight former Sloan fellows have become Nobel laureates.

Academic Personnel Action Forms must be in the Office of the Vice Chancellor-Academic Affairs, S 118, by Friday, May 8. Staff Personnel Action Forms must be in the Personnel Office, U 12, by Friday May 15. These approved forms then will be sent to the Accounting Office before June 8.

A campus memorial service for H. Glenn Bell, professor of Surgery emeritus, will be held on Wednesday, April 8, in Toland Hall from 4 to 5 p.m. Bell, who was chairman of the Department of Surgery from 1946 to 1956, died in January of this year.
